

# **The Whale**

Swimming around the deep blue sea, couldn't care less  
That's what the whale does the best

The whale rules so don't get in its way  
If you do you'll soon know 'cause you'll be its prey

The massive tail flicking out of the water and making a splash  
Jumping, diving, eating, and swimming as fast as a flash

The nice, loyal whale as big as can be  
The whale is the king of the world, the whale is the king of the sea.

The angelic whale whatever did it do to you?  
So why are we killing them and taking them from their home – deep in the sea?
