

# Edge of Extinction

Whales spilling ruby red blood  
Quokkas jumping away from threats  
Mountain Gorillas struggling for survival  
Sun Bears not many left at all  
Elephants trumpeting in pain  
Pandas hiding in bamboo treetops  
Snow Leopards killed for their skins  
Bilbys trying to survive  
Tree Kangaroos almost dead  
Siberian Tiger hardly any alive  
All these animals are at the Edge of Extinction.
